Special needs?

Open cooling towers

Special needs?

Energy saving

FXT uses evaporative cooling technology for lower operating temperatures than other cooling methods. With the following options, reduce energy costs still further:

- Thermostat

Year-round reliable operation

Inspect and maintain your cooling tower and protect it against extreme weather for year-round reliability. The options below help keep your cooling tower running smoothly and reliably and facilitate maintenance.

- Remote sump connection
- Water treatment equipment
- Sump sweeper piping
- Filter
- Distribution basin covers
- Vibration cut-out switch
- Basin heater package
- Electric water level control package
- Baltibond® hybrid coating

Do you too want to benefit from the above solutions? Contact your local BAC representative for more information.
