

VersaCross fill

Spare parts guide

VersaCross fill

The patented VersaCross fill is designed and tested in the [BAC laboratories](#).

Benefits

- **Improves thermal performance of original BACross fill by an average of 7,3%**
- easy core inspection: sheet by sheet without dismantling
- easy cleaning: sheet by sheet inside the tower
- efficient installation with model specific retrofit kits
- low shipping costs: nested shipment, smallest fill staging

Characteristics

- BAC patented design with telescopic fill support
- integrated eliminators and louvers
- **complete installation kit supplied to upgrade existing unit**
- self-extinguishing PVC material, impervious to rot and biological attack
- for temperatures up to 50°C

We use VersaCross fill for upgrading

- S3000 of previous generation
